**Subject:** House Bill 5041 - Please Support

Dear Members of the Transportation Committee,

It is my understanding that on Wednesday, March 16, 2016 the Transportation Committee will hold a public hearing on HB 5041, a bill that would help the DMV run more efficiently by allowing the state to expand the types of services that can be provided by private contractors. I am in support of this bill and urge you to pass it. My soon to be 16-year old son has an appointment for his CT Drivers Permit test scheduled for April 8, 2016 at 3:45 PM in the Norwalk location. Last week, a friend took her son for his appointment in Norwalk and waited over 2 hours before he sat for the test. Despite the fact that he had a scheduled appointment time, they still had to wait a very long time. In my mind, an extremely lengthy wait defeats the purpose of scheduling an appointment. I am hoping that we do not experience the same situation and believe that if services such as issuing Drivers Permit tests are privatized, wait times will be significantly minimized.

Please support HB 5041.

Respectfully,

Nancy Gany  
Wilton, CT
